CAREER SUMMARY

Frontend React Developer passionate about crafting intuitive, responsive and user-friendly web applications. Skilled in React.js, JavaScript, TypeScript, Tailwind CSS, HTML and CSS, with a strong focus on performance optimization and seamless user experiences. As a proactive and self-driven learner, I actively apply my skills to real-world projects, collaborating effectively to deliver high-quality applications. Excited to tackle challenging frontend development roles that drive innovation and user-centric design.

WORK EXPERIENCE

React Developer
The IT Cart — Remote (Canada)   Aug 2024 - May 2025

Developed responsive and modular UI components using React.js, Tailwind CSS and JavaScript for various production-grade web applications.

- Designed and implemented responsive UI components for an e-commerce website called LittleSpills, focused on selling premium furniture and home decor, enhancing overall user experience
- Created the complete frontend UI for GreenGuide, a plant management application that helps users track and care for their plants, ensuring a clean, user-friendly design and seamless navigation
- Built scalable, modular frontend architecture for Wheelz, an online platform facilitating car buying, servicing and selling, ensuring smooth and intuitive user interactions.

Web Development Intern
Svaapta IT Ally Solutions Pvt. Ltd. — Onsite   Jan 2024 - Apr 2024

Gained hands-on experience in frontend development using HTML, CSS, JavaScript, and PHP during intensive WordPress and Web Technologies training.

- Created responsive web pages and implemented clone templates based on provided designs, focusing on layout precision and cross-device compatibility.
- Resolved UI and functionality issues in the existing Knowledge Centre project — a centralized platform for organizational skill and knowledge management — improving user experience and system reliability.

Web Designing Intern
Techno Heaven Consultancy Pvt. Ltd. — Onsite   Jul 2023 - Aug 2023

Gained hands-on experience in frontend design by creating visually engaging single-page layouts for the travel and tourism sector using HTML and CSS.

- Designed and developed static travel service web pages similar to commercial travel websites
- Focused on layout design, responsiveness and clean UI principles to ensure a professional and accessible user interface.
