CAREER SUMMARY

Frontend React Developer with hands-on experience in React.js, JavaScript, HTML, and CSS. I specialize in creating dynamic, responsive, and user-friendly websites that deliver seamless user experiences across devices. Alongside building front-end applications, I have practical knowledge in SEO techniques such as creating backlinks, writing blogs, and engaging on platforms like Quora to boost web presence.

As a motivated self-directed work-study student, I actively apply my skills to real-world projects, continuously learning and improving. I am detail-oriented, adaptable, and passionate about becoming a professional frontend developer, contributing effectively to any team or project.
